

19mm Ribbon Steel Strapping Setup

- ❖ 798kg Break
- ❖ Strong and reliable
- ❖ Easy to use
- ❖ Low cost setup

We recommend the 19mm standard ribbon setup for users strapping heavy items such as steel, or timber and timber truss or wall frames. The standard steel strapping setup is simple to use with snap on seals while providing great joint efficiency. Choose between a standard carry dispenser or the A frame dispenser with wheels.
