Air Cushion Machine

Air 3

The Air 3 Is an air cushion inflation machine. Air pillows are used for packaging and distribution of product to create and air layer between your goods and the outer packaging. This air layer absorbs impact, shock and prevents the product from moving.

Main Features

- Preset settings, easy operation
- Easy replace of ware parts.
- Fast start up
- Industrial heavy duty design.
- Portable

Air 3 is designed to protect your products during shipment. Multiple type of airbag is ideal to fit into different packaging needs. It is extremely user friendly. It provides different preset setting modes to enhance the productivity.
Most suitable for medium to large users.
