

Bubblewrap 10MM

Polycell's range of Air Bubble products are made from a carefully formulated blend of virgin low density and linear low-density resins along with various additives for performance purposes.

Our Air bubble range is also available in varying thicknesses (micron) of plastic. The thicker the micron, the stronger the bubble. Due to such a wide range of packaging requirements, we also offer a variety of bubble grades to ultimately give our customers a greater choice for their packaging needs.

- ❖ Great for storing or transporting delicate items
- ❖ 10mm sized bubble
- ❖ Made in Australia by Polycell
- ❖ Good for absorbing shock in transport

<u>Code</u>	<u>Description</u>	<u>EA</u>
SWU7	BUBBLEWRAP 10MM 1520MM X 100M	1

Custom slitting and perforations available!

Should you need a size not listed above, we can slit rolls to the desired widths of your choosing and even perforate rolls, so the bubble-wrap can be torn easily into sheets.
