

# Packaging Tape

- ❖ A premium packaging tape with a 35 Micron Biaxially Orientated Polypropylene (BOPP) film tape coated with a natural rubber-based adhesive that can be used for a wide variety of surface conditions
- ❖ It can handle hot, humid and freezer conditions on a variety of substrates including recycled cartons.
- ❖ It is ideal for carton sealing because of its consistent quality and performance
- ❖ It has high tensile strength and strong adhesion & power over a wide temperature range.
- ❖ Natural Rubber adhesive is best for cardboard and long-term storage.
- ❖ It is however not recommended for temperatures above 70deg.

## PRODUCT SPECIFICATIONS

<b>Total Thickness:</b>	0.058MM
<b>Adhesion Strength:</b>	2.6 N/CM
<b>Tensile Strength:</b>	44 N/CM
<b>Elongation at Break:</b>	130% - 180%
<b>Application Temperature Range:</b>	-15°C to 65°C
<b>Service Temperature Range:</b>	-30°C to 75°C
