

Packaging Tape

- ❖ A Biaxially Orientated Polypropylene (BOPP) tape coated with a natural rubber-based adhesive that can be used for a wide variety of surface conditions and extreme temperature tolerances.
- ❖ It is ideal for recycled-content cartons and for cartons requiring hot, humid or cold packing, transportation and storage.
- ❖ Natural Rubber adhesive is best for cardboard and long-term storage.
- ❖ It is however not recommended for temperatures above 70deg.

PRODUCT SPECIFICATIONS

Total Thickness	0.050MM
Adhesion Strength	1.2 kg/CM
Tensile Strength	3.4 kg/CM
Elongation at Break	110%
Application Temperature Range	-15°C to 65°C
Service Temperature Range	-40°C to 75°C
