

Packaging Tape

- ❖ A heavy duty Biaxially Orientated Polypropylene (BOPP) tape coated with a natural rubber-based adhesive that can be used for a wide variety of surface conditions and extreme temperature tolerances.
- ❖ It is ideal for recycled-content cartons and for cartons requiring hot, humid or cold packing, transportation and storage.
- ❖ Because of its very high tensile strength from the thick backing material as well as a very good adhesion strength, it will secure the safe sealing of heavy carton and pack lots.
- ❖ Natural Rubber adhesive is best for cardboard and long-term storage.
- ❖ It is however not recommended for temperatures above 70deg.

PRODUCT SPECIFICATIONS

Total Thickness:	0.070MM
Film Thickness:	0.050MM
Adhesion Strength:	2.0 N/CM
Tensile Strength:	70 N/CM
Application Temperature Range:	-15°C to 65°C
Service Temperature Range:	-40°C to 130°C
