

Pneumatic Strapping Tool

TITAN MAXI-L

The TITAN MAXI-L is the logical complement of this tool range for the use of steel strapping in combination with a seal joint.

Particularly for the use of 19mm steel strap the advantages of this tool are present.

The double notch crimp system guarantees highest performance.

Technical Data

Strap Tensioning:	ADJUSTABLE, MAX 5,000N
Strap Feeding Speed:	110mm/SEC
Air Pressure:	MIN 5 BAR (19 X 0,8 MB)
Joint:	SEAL JOINT, DOUBLE NOTCH
Type of Seal:	STRAP WIDTH 19MM, RSK19

Steel Strap

REGULAR DUTY	HEAVY DUTY
Strap Widths: 19MM	Strap Widths: 19MM
Strap Thickness: 0.6 – 0.8MM	Strap Thickness: 0.63-0.8MM
Tensile Strength: Up to 900 N/MM2	Tensile Strength: Up to 1,000 N/MM2
